

*Najam Naqvi*

My association with TRC is of 15 years. I am working here as an Office Manager, looking after all the administrative aspects of the organisation. There are so many opportunities to learn and grow. It is great to be a part of this organisation. Maybe another 15 years of association with TRC is ahead, if life permits!!

*Shahida Parveen*

I have a Master's degree in Library and Information Science from Karachi University and a total of 12 years experience in managing libraries. I have been working at TRC since 2001 and am very happy to be working here. The environment of respect and understanding makes me feel very comfortable and I can't even imagine working anywhere else. I learn a lot in my job here, because there are new challenges and I have to keep myself updated with new trends and technologies.

*Inayet Khan*

I am a Karachi University graduate and a student of the ICMA; I have a total experience of 21 years of which I have been working at TRC for the last 14 years. It has been a great learning experience to be at TRC, as it has enabled me to work independently in various areas of finance, such as, finalising the accounts for the annual audit, budgeting, project finances and international project financial reporting. It is a great pleasure to work at TRC and I hope to continue my efforts to develop further.
